

ICEdge

2nd IEEE International Conference
on Intelligent Computing and
Systems at the Edge

IISc Bangalore, India
December 17-19, 2026
<https://icedge.org>

The tremendous progress in AI and IoT is driving the emergence of AIoT systems that enable real-time sensing, processing, secure communication, and intelligent decision-making at the Edge. This conference aims to bring together researchers, industry experts and government bodies to share insights and innovations in AIoT and Edge system development.

Tracks

- Track 1: Devices and Circuits for Edge Applications
- Track 2: Systems and Architectures at the Edge
- Track 3: EDA Tools, Systems and Software for Edge AI
- Track 4: Emerging Technologies and Applications at the Edge
- Track 5: Security and Privacy at the Edge
- Track 6: Industrial Design and Applications

Full list of Tracks is available at:
